Philip J. Migliore, M.D.  
Chairman and Research Director  
The Moran Foundation  
Department of Pathology  
Baylor College of Medicine  
Houston, TX 77030

Dear Dr. Migliore:

I am writing to report to you on the current status of our project **EFFECT OF TREATMENT WITH PROTON PUMP INHIBITORS ON OXIDATIVE DNA DAMAGE AND MALIGNANT PROGRESSION IN BARRETT'S METAPLASIA** which was funded by the Moran Foundation.

This is a collaborative project that involves us and collaborators from University of Arizona and the Cleveland Clinic. Although we have processed all the samples we have received from Arizona, we got the material from the Cleveland Clinic only a month ago, at a time when we were busy preparing abstracts fro the upcoming meeting of the USCAP. Nevertheless, we will be done with the project by the end of the year in time to send an abstract to the largest Gastroenterology meeting (AGA). A final report with the result, and hopefully a copy of a manuscript, will be sent to you then.

Sincerely,

A handwritten signature in cursive script, appearing to read "Mamoun Younes".

Mamoun Younes, M.D.
